

## **History Curriculum Overview**

"The History department at Calder High school aims to provide a chronological and coherent curriculum that builds on prior knowledge and builds an understanding of historical second order concepts. We aim to build a curriculum that celebrates the diversity within the school, promotes equal opportunities for all and can be accessed by students of all abilities. We aim to equip students with an appreciation of theirs and other's cultural backgrounds, to be perceptive and ask questions, and to be able to make substantiated judgements in their future based on balanced evidence. We aim to integrate every opportunity to develop and embed the core skills of literacy and numeracy. Our ultimate aim is that students have an enjoyment of History, a positive attitude to the subject and an appreciation of how History can support them in their future career and daily life.
