Make Your Own Mezuzah

Instructions for Making a Mezuzah

1. Cut around the edge of the two mezuzah parts by following the solid black lines.

2. Next, fold down the dotted lines to create hill folds.

3. Fold up the dashed and dotted lines to create valley folds.

4. Apply glue to the larger tab on the golden section and stick this to the section on the opposite side. This should begin to form the mezuzah's shape.

5. Apply glue to the smaller tab on the golden section and glue down inside the mezuzah to seal one end.

6. Place the folded plain section inside the mezuzah. This represents a piece of parchment with writing from the Torah.

7. Seal the final open-ended section of the mezuzah by gluing together the two triangular tabs.
